PRELIMINARY RECITALS

Pursuant to a petition filed August 24, 2015, under Wis. Stat. § 49.45(5), and Wis. Admin. Code § HA 3.03(1), to review a decision by the Division of Health Care Access and Accountability in regard to Medical Assistance, a hearing was held on October 07, 2015, at Milwaukee, Wisconsin.

FINDINGS OF FACT

1. Petitioner (CARES # [REDACTED]) is a resident of Milwaukee County.
2. On May 11, 2015 the provider, Preferred Home Health, submitted PA # [REDACTED] for PCW services in the amount of 23 hours per week.

3. The Department authorized 12.5 hours per week.
4. Petitioner appealed.

DISCUSSION

Personal care services are “medically oriented activities related to assisting a recipient with activities of daily living necessary to maintain the recipient in his or her place of residence in the community.” Wis. Admin. Code, §DHS 107.112(1)(a). Covered services include the following:

1. Assistance with bathing;
2. Assistance with getting in and out of bed;
3. Teeth, mouth, denture and hair care;
4. Assistance with mobility and ambulation including use of walker, cane or crutches;
5. Changing the recipient's bed and laundering the bed linens and the recipient's personal clothing;
6. Skin care excluding wound care;
7. Care of eyeglasses and hearing aids;
8. Assistance with dressing and undressing;
9. Toileting, including use and care of bedpan, urinal, commode or toilet;
10. Light cleaning in essential areas of the home used during personal care service activities;
11. Meal preparation, food purchasing and meal serving;
12. Simple transfers including bed to chair or wheelchair and reverse; and
13. Accompanying the recipient to obtain medical diagnosis and treatment.

Wis. Admin. Code, §DHS 107.112(b).

Personal care workers can spend no more than one-third of their time performing housekeeping activities. Like all medical assistance services, PCW services must be medically necessary and cost effective. Wis. Admin. Code, §DHS 107.02(3)(e)1 and 3.

The DHCAA approved 12.5 hours of PCW services each week for the petitioner. To reach this figure the DHCAA used the Personal Care Screening Tool, a computer program it believes will allow it to consistently determine the number of hours required by each recipient. The screening tool allots a specific amount of time in each area the recipient requires help, which the DHCAA’s reviewer can then adjust to account for variables missing from the screening tool’s calculations.

The reason that the tool is used is evident in a case such as this one. Petitioner’s caregiver is her grandmother. The problem with family members being the personal care workers is that it is that they may take more time to do care tasks due to inexperience or carelessness, and thus the Department has set maximum times for a typical care worker.

Petitioner’s brother appeared at the hearing and is the primary caregiver, but he failed to articulate cogent reasons why the Department’s positions were flawed. He only stated that cares take more time than the Department has granted. Frankly, he seemed to be arguing that his need to make a reasonable living should be a primary consideration. It is not.

The Department’s analysis of petitioner’s needs is the most thorough and credible determination in the record. The rest seem arbitrary at best.

CONCLUSIONS OF LAW

The Department did not err in its modification of the PA for PCW hours.

THEREFORE, it is

ORDERED

That this matter is dismissed.
